1494. [Exodus] VINCENZO BONATO, *Il libro dell'Esodo nell'esperienza cristiana* (Quaderni di Camaldoli, Meditazioni 20; Bologna: EDB, 2009). Pp. 210. Paper €19.90. ISBN 978-88-10-41139-1.

The aim of B.'s volume is to promote the *lectio divina* approach to the Book of Exodus, which he divides up into three main segments: 1:1–15:21; 15:22–18:23; 19:1–40:38. For each of these segments, B. provides an Italian translation of its key passages, together with a brief orientation to their content, and comments concerning the passages' moral, spiritual, and typological significance that are drawn from an array of Christian sources from Origen through a 1995 statement of the Italian Episcopal Conference. The bibliography lists the works (in Italian translation) from which B. derives the meditative reflections featured in the volume.—C.T.B.
